

Champaluxe

Two-piece smooth capsule produced from polylaminate for the core sparkling wine market

Amcor's Champaluxe capsule brings sophistication to your products thanks to a wide range of design possibilities including ultra smooth surface, surface embossing, different tie finishes, UV printing and hot stamping, and double hot stamping. This high quality poly laminate material is ideal for high-speed bottling lines. What's more, Champaluxe offers a patented easy-opening system.

Features

- Choice of surface embossing type or smooth finish
- Up to 5 colours printed on skirt with sophisticated finishes (shiny/ matt/ metallic)
- Double hot stamping on skirt and wide range of skirt bottoms designs
- Easy-opening system
- Wide range of calibres

Key benefits

- Easy to apply on very high speed bottling lines and less steps option (eg médaillon)
- Sophisticated design options with surface effects for brand differentiation
- Option for shadow effects on skirt using double hot stamping
- Easy opening which can be branded
- Adapts to many different bottles types

Applications

Champagne & sparkling wine

Packaging process
