

Contractor Rotary Flat Surface Cleaner

Save Time. Save Money. Earn More Per Job.

Hydro Twister® ANT4C

The ANT4C 4-in-1 Contractor Hydro Twister® by AaquaTools is a flat surface cleaner that connects to a pressure washer and uses two nozzles rotating at high RPM within an inch of the ground. It will clean concrete up to ten times faster than a standard wand, with more consistency and less operator fatigue. Simply connect to your power washer and move the Hydro Twister over the surface and watch a clean path appear behind the unit.

The ANT4C is the proven choice for professional surface cleaning now with four tools for your cleaning needs. The ANT4C combines a 28 inch flat rotary surface cleaner, spot/gum remover, hydro water broom for quick rinse and an edger to create an all-in-one deluxe surface cleaner. The dual trigger guns activate either the rotary spray arm or one of the other three devices. By combining four processes into one unit, you will save time and eliminate fatigue when cleaning large expanses of concrete, parking lots or other flat surfaces. The secret that makes the Contractor Hydro Twister so effective is the ideal water spray angles and nozzle heights that optimize cleaning power.

Features

- Pressure washer adaptable
- Quick disconnect fitting saves time
- Four-in-one tool accessories
- Reduces overhead labor costs
- Low profile deck & rear splash guard
- Reduced maintenance costs
- Reduced fatigue

Benefits

- Hook up to a hot water pressure washer to clean even faster by cutting through grease and grime
- Easily swap between functions in seconds
- One accessory does the work of 4 others and allows for less overhead
- Earn more per job by increasing the cleaning power by more than 20 times than the use of a wand alone
- Fits under benches, machinery; keeps operator's feet dry
- Constructed from lifetime corrosion resistant stainless steel, heavy duty long life swivel and three permanently lubricated sealed bearings lower maintenance intervals
- Handle is held in place at ideal working angle

Nozzle Rotation	up to 200 rpm
Nozzle	Two standard #2.7 @ 15°
Deck	28"
Material	Stainless steel; deck, frame and handle with adjustable position, trigger dual guns

Ordering Information

ANT4C	Hydro Twister® 4-in-1 surface cleaner
HotCart	HotCart hot high pressure washer
107146814	KEW Poseidon 7-67 cold & hot water pressure washer

An onboard edging tool cleans close to planters, columns, and walls or use the water broom to rinse a large area

Special Features

The Hydro Twister has the output to tackle big cleaning jobs fast. It combines the features of 4 different accessories all into one system that allows you to easily swap between functions in seconds with the quick disconnect fittings. Rear casters lock to clean in a straight line.

1. Surface Cleaner: Clean up to 20 times faster than with a standard wand without leaving "zebra stripes".
2. Water Broom: Quickly rinse the area from debris before or after you clean. An integrated water broom makes non-stop cleaning convenient by eliminating the need to disconnect and reconnect tools.
3. Gum Spot Nozzle: The exclusive SIX-SHOOTER gum/spot nozzle blasts stubborn spots or imbedded gum with pinpoint accuracy is mounted beneath the deck so that there is no overspray when removing gum or paint spots
4. Edge Cleaning Nozzle: Clean the strip right up against pillars, columns, walls and buildings.

Compatible Products

HotCart Hot High Pressure Washer –
Just provide the water and we'll heat it up to 185°F with flows up to 13.2 gallons per minute. With AaquaTools HotCart hot high pressure washer option, you can enjoy hot water and high pressure up to 2750 psi with flows up to 5.5 gpm.

Poseidon Hot & Cold High Pressure Washer
– The KEW Poseidon 7-67 premium class industrial cold & hot (up to 185°F) water pressure washer combines the renowned lifetime and quality of the C3 pump with optimal ergonomics to bring an unbeatable heavy duty pressure washer to many industries. The high water flow makes it very useful for applications where a high level of dirt has to be removed or flushed away.

Applications

Driveways, drive-thrus, patios, garages, concrete sidewalks, school yards, factory & warehouse, restroom floors, food processing floors, service stations, concrete parking lots, pool decks, sport courts, roofs & decks, loading docks, tile flooring, stadiums, marina docks, moss & mildew removal.
