

Table version Bag in Box filler MINIFLOW

A table version semi-automatic Bag in Box filler fills liquids into Bag in Box and Stand up Pouch packages.

This small Bag in Box filler is an easy, economical and mobile solution for filling liquids into Bag in Box or Stand up Pouch packages. Just insert the bag or pouch into the filler and pull the handle – machine fills the package automatically. Return the filling handle into the start position, cap the bag and the filling process is finished.

Output: ~250 pcs. of 3 L packages per hour (depending on the pump)

- Perfect for filling various liquids: from juice, wine, puree, to broth, oil, soap, etc.
- The weight of the machine is only 50 kg, so it is especially easy to move from one facility to another.
- There are two options of machine: with or without pump. When purchasing machine without pump, you can connect your own pump or fill the packages by gravity.
- Fills Bag in Box bags in sizes 1–20 L, Stand up Pouch packages in sizes 0,75–5 L.
- Suitable for hot and cold filling.
- Machine fills both Bag in Box and Stand up Pouch packages with a tap.
- Bag in Box filler pre-vacuum the bags and pouches before filling.
- Machine comes with a touchscreen panel and a multi-language menu.
- Error of volume repeatability is only $\pm 0,5\%$.
